EXECUTIVE SUMMARY:

They needed A one stop solution which will enable the customers to retrieve their information related to Home loans in one single click. DHFL required CUSTOMER PORTAL which can help them access their information related to loans and other documents which can be viewed at any given point of time, download reports online with the help of the portal.

ABOUT:

DHFL is the Second housing finance Company to be established in the country, however, with a unique mission, which is today benchmark as a model of financial inclusion in the Indian financial services sector.

CHALLENGES:

- Reports such as provisional IT certificate, statement of account was made available at the click of the button.
- Online report generation for clients at any given point of time.
- Easy access to required information was made available
- DHFL had existing data on their database that was further linked to portal. This data was effectively displayed to the clients in different modules.
